

To the FCC:

I am extremely concerned about recent reports that Sinclair Broadcasting is planning to air an extremely partisan, anti-Kerry documentary "infomercial" just days before the election. This amounts to nothing more than propaganda on the public's airwaves, as it is to be misrepresented as news rather than as a paid political advertisement--provided free of charge by Sinclair--an extremist company that is out of touch with mainstream America.

sinclair should be fined or have its license withdrawn for this blatant misuse of the public's airwaves.

Sincerely,
Vivian Parker
